

West Hendon Regeneration: Public exhibition on Phases 5 & 6

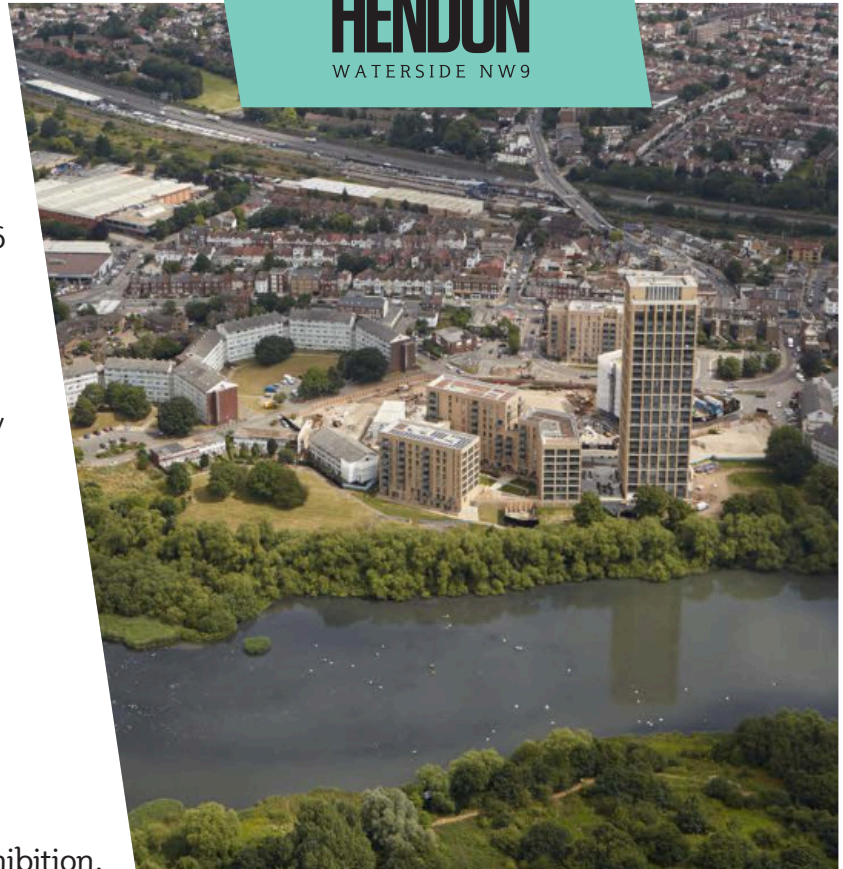

As the regeneration of West Hendon continues, Barratt Metropolitan LLP invites you to view detailed plans for Phases 5 and 6 at an upcoming public exhibition.

The exhibition will display proposals for the final phases of the outline application, which will deliver over 730 new homes and the new Silk Stream bridge, along with improved access and new open space on the estate. It is proposed to submit the application for these phases mid-December 2017.

Please join us to view the detailed plans where members of the development team will be present to talk through the proposals and answer any questions on these future phases of the project.

Please turn over for details of the public exhibition.

HENDON
WATERSIDE NW9
